

European Sustainable RFID Forum 2026

A day with the people who make the substrates, the chips and the antennas, and what the Digital Product Passport will demand from your supply chain. No sales pitches: every session is a manufacturer explaining what already works on their lines, what it costs and where it fails.

DATE	HOURS	LANGUAGE	SESSIONS
22 October 2026	09:00 to 15:00	English	8 sessions · 2 panels
